

## Tutorial de Instalação do PJe Office – macOS

Entre no site <https://pgmemcasa.com.br> e faça o download do instalador do “PJe Office” clicando em “Baixar Instalador macOS” em “Assinadores Eletrônicos”.

Aguarde o download do instalador.

Abra o “Finder” e abra o instalador dando um duplo clique no arquivo baixado.

Execute o “PJeOffice” pressionando mantendo pressionada a tecla “CTRL” / “CONTROL” e clicando em “Abrir”.

Clique em “Abrir”.

O “PJeOffice” será executado e aparecerá no “Dock”.
